TEENS TEACH: Python

In this 4-session beginners Python workshop we will use the Turtle library to create graphics! Taught by our own Teen Volunteer, Ella Dundas, participants will learn how to make your very own game! You will also learn how to draw, make shapes, and other aspects of coding. Participants need to bring a laptop or tablet that can connect to WiFi. Feel free to check out the website and make a free account at Repl.it (<https://repl.it/signup>), the website we will be using to write code.
